About Hindalco

Hindalco Industries Limited is the metals flagship company of the Aditya Birla Group. With a revenue of USD 26 billion, Hindalco is an undisputed global leader in aluminium and copper operating across the entire aluminium value chain, including bauxite mining, alumina refining, coal mining, power generation, aluminium smelting, and aluminium rolling, extrusions, and foil production. With 17 manufacturing units and 21 mining operations in India, and 33 units overseas, Hindalco is India's largest aluminium downstream player.

It has also earned the title of the World's Most Sustainable Aluminium Company for three consecutive years (2020-2022) in the Dow Jones Sustainability Indices (DJSI) due to its excellence in sustainable business practices. In 2007, Hindalco made a strategic move by acquiring Novelis, the world's top producer and recycler of aluminium flat-rolled products (FRP). In 2020, Novelis further strengthened Hindalco's position as the world's leading FRP producer by acquiring Aleris Corporation, a global supplier of aluminium rolled products.

Innovation

Hindalco is focussed on building innovative solutions to contribute to the industry and deliver unmatched value to its customers. The focus on R&D is driven by the fact that innovation plays a big role in climate action and sustainable decarbonisation for the nation. In India, Hindalco has three state-of-the-art innovation centres located in Belagavi in Karnataka, Talaja in Maharashtra, and Dahej in Gujarat. The innovation centres are ISO 9001:2000 certified and recognised by the Department of Scientific & Industrial Research (DSIR), Government of India. The Talaja centre has also been accredited in accordance with the standard ISO/IEC 17025:2005 by the National Accreditation Board for Testing and Calibration Laboratories (NABL).

Every manufacturing plant in turn has its own R&D labs, which work on quality assurance, process efficiencies, environmental standards, and new product development.

Our People

At Hindalco, our employees are our most valuable assets, and we are committed to recruiting the best talent in the industry by offering a progressive working environment with ample opportunities to grow. With a firm focus on instilling a sense of ownership among employees, we continue to nurture a culture of excellence and high performance through several learning and development initiatives.

Our 40,000+ employees spread across 50 locations across the globe play a critical role in our journey towards building a greener, stronger, and smarter world.

Sustainability

At Hindalco, sustainability is more than manufacturing products that are sustainable. Our goal is to become carbon neutral, achieve water positivity, no net loss on biodiversity and zero waste to landfill by 2050. We are the only aluminium company to be a part of the DJSI World Index and have retained the title of the most sustainable aluminium company for two consecutive years by DJSI.

CSR

We are committed to working with our stakeholders to realise social, environmental, and economic benefits for the communities around the world. We ensure that we avoid, minimise, and remediate any impact that our operations may have on the communities and take care not to impinge upon common property resource rights like water and energy sources. We strive towards positive community impact through our various corporate social responsibility initiatives.
