

HIL/LHD/ENV/MoEF/ 515

Date: 28.05.2020

To,
The Additional Principal Chief Conservator of Forest (C)
Ministry of Environment, Forests and Climate Changes
Regional Office (ECZ), Ranchi-834002.

Sub: Compliance Report of EC conditions for Bagru (75.41 ha) Bauxite Mining project of M/s Hindalco Industries Limited located in Lohardaga District of Jharkhand for the period October'19 to March'20.

Ref: Environmental Clearance letters no J-11015/585/2007-IA. II (M) dated 04th Feb 2011

Sir,

With reference to the above, we are submitting herewith the Compliance status report of EC conditions for **Bagru (75.41 ha)** Bauxite Mining project of **M/s Hindalco Industries Limited**, located in Lohardaga District of Jharkhand for the period October'19 to March'20. The lease detail is as below.

Lease area (ha)	Production Capacity (MT)	Lease Period
75.41	85000	22.01.1974 to 31.03.2030

Hope you will find the same in order.

Thanking You

Yours Sincerely
FOR **M/s Hindalco Industries Limited**,

(Basudev Gangopadhyay)
GM (Geology & Environment)

Enclosure: - As Above

CC: ro.ranchi-mef@gov.in, mef@ori.nic.in, mef@nic.in, mef.or@nic.in, mccb.cpcb@nic.in, zokolkatta.cpcb@nic.in, ranchiispcb@gmail.com, roranchi47@gmail.com

**Compliance of conditions laid down in Environmental Clearance
BAGRU BAUXITE MINES (75.41 Ha)**

Period: October'19 to March'20

MoEF Environment Clearance ref. no. : J – 11015/585/2007 – IA.II (M) dated 04 Feb'2011

SN.	Conditions	Compliance Status
Specific Conditions		
1	All the conditions stipulated by the State Pollution Control Board in their NOC should be effectively implemented.	Implementations of stipulated conditions in NOC are fulfilled post which consent to operate has been obtained from time to time when mine was operational. Presently Mine is not in operation since November 2013.
2	The environmental clearance is subject to grant of forestry clearance for diversion of 19.56 ha forestland.	Compensatory land for forest diversion has been identified and request letter to DFO, AC and Registrar has already been submitted for obtaining NOC. Obtaining forest clearance is under process. Presently Mine is not in operation since November 2013.
3	The mining operation shall be restricted to above ground water table and it should not intersect groundwater table. In case of working below ground water table, prior approval of the Ministry of Environment & Forest and Central Ground Water Authority shall be obtained for which a detailed hydro-geological study shall be carried out.	No mining operation has been carried out during above period. The Mine is not in operation since November 2013. We undertake that no mining was carried out below ground water table and the same status will be maintained in future also.
4	The project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations.	No mining operation was being carried out during above period. Mine is not in operation since November 2013. No natural water course /water resource was obstructed /will be obstructed due to mining operation.
5	Top soil should be temporarily stacked with proper slope at earmarked site(s) only with adequate measures and it should not be kept unutilized for a period	Sequential backfilling and reclamation of mined out area were exercised when mine was operational. No mining operation was being carried out during above period and as

	of more than 3 years. The top soil shall be used for land reclamation and rehabilitation of mined out areas.	on date. Mine is not in operation since November 2013.
6	The entire waste generated shall be backfilled and there shall be no external over burden dump left at the end of the mine life. The entire backfilled area shall be reclaimed by plantation. The backfilling should be carried out in such a manner that it is restored to the normal ground level. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment & Forest and its Regional Office, Bhubaneswar on six monthly basis.	<p>No mining operation was being carried out during above period and as on date. When mine was operational simultaneously backfilling was carried out as per approved Mining Plan.</p> <p>Cumulative 32.05 Ha areas have been planted till date.</p> <p>Monitoring and management of rehabilitated areas is in progress through supervision.</p> <p>There is no active external dump. Old dumps are stabilized.</p>
7	The void left unfilled in an area of 1.76 ha shall be converted into water body. The higher benches of excavated void/mining pit shall be traced and plantation done to stabilize the slopes. The slopes of higher benches shall be made gentler for easy accessibility by local people to use the water body. Peripheral fencing shall be carried out along the excavated area.	<p>The mined out area converted into water body when mine was operational which still exist.</p> <p>No mining operation has been carried out during above period and as on date.</p> <p>Mine is not in operation since November 2013.</p>
8	Catch drains and siltation ponds of appropriate size shall be constructed around the working pit, sub-grade dump, and mineral dumps to arrest flow of silt and sediment directly into Chanpi Nallah, Sukri Nadi and others water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains should be regularly desilted,	Mine is not in operation since November 2013. No mining operation was carried out during above period and as on date. Hence, no run off was generated from mining activities. However, to collect and manage rainwater during monsoon rains, pit sumps were made, part of mined out area were used as settling tank. Settled water was used for sprinkling of quarry, roads, green belt development, etc when mine was operational.

	<p>particularly after monsoon, and maintained properly. Garland drains settling tanks and check dams of appropriate size, gradient and length shall be constructed for both around the mine pit and sub-grade dump to prevent run off of water and flow sediments directly into Chanpi Nallah, Sukri Nadi and other water bodies and sump capacity should be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years date) and maximum discharge in the area adjoin the mine site. Sump capacity should also provide adequate retention period to allow proper settling of silt material. Sedimentation pits should be constructed at the corners of the garland drains and desilted at regular intervals.</p>	<p>The compliance to this provision was being practiced when mine was in operation and same will continue post resumption of mining operation .and water harvesting pond and sump of adequate capacity exist in lease area to harvest rainwater.</p>
9	<p>Dimension of the retaining wall at the toe of sub grade dump and OB benches within the mine to check run-off and siltation should be based on the rain fall data.</p>	<p>The dimensions of retaining wall of OB dumps are based on average rain fall. The dump is stabilized. The compliance to this provision was being practiced when mine was in operation and same will continue post resumption of mining operation. Mine is not in operation since November 2013.</p> <p>No active external dump exists in mine lease area.</p>
10	<p>Plantation shall be raise in an area of 50.11 ha including a 7.5m wide green belt in the safety zone around the mining lease by planting the native species around ML area, backfilled and reclaimed area, around water body, roads etc. in consultation with the local DFO/Agriculture Department. At least 1500 trees per year shall be planted with a tree density of 1000 trees per hectare.</p>	<p>Plantation on Bagru plateau was carried out progressively. Till date 32.05 Ha areas is already planted. Total no of plantation is 80125 till date.</p>

11	<p>Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around crushing and screening plant, loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the AAQ parameters conform to the norms prescribed by the central Pollution Control Board in this regard.</p>	<p>Water sprinkling is being carried out regularly.</p> <p>AAQ and water quality is monitored.</p> <p>Measured AAQ parameters reported are within permissible limit.</p>
12	<p>The project authority should implement suitable conservation measures to augment ground water resources in the area in consultation with the Regional Director, Central Ground Water Board.</p>	<p>System was in place when mine was operational and same will continue in future post resumption of mining activity. Mine is not in operation since November 2013</p> <p>Rainwater harvesting pond and sump is already in place as water conservation measures.</p>
13	<p>Regular monitoring of ground water level and quality should be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring should be carried out four times in a year - pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the data thus collected may be sent regularly to MOEF, its Regional Office, Bhubaneswar; Central Ground Water Authority and Central Ground Water Board.</p>	<p>We are not using ground water for any mining purpose. There is no chance of intersection ground water table during mining operation at present and in future.</p> <p>Piezometer has been installed to regular monitor the ground water level.</p> <p>Mine is not in operation since November 2013.</p> <p>Water quality report attached as Annexure- 1</p>

14	The project authority shall obtain necessary prior approval of the competent authority for drawl of requisite quantity of water (surface water and ground water) for the project.	Rain water harvested during rainy season was being used for sprinkling on haul roads and raising plantation. No surface water from natural resource was used for mining operation when mine was operational. Mine is not in operation since November 2013 Online application for extraction of ground water has already been submitted to CGWA/CGWB for drinking purpose only and awaiting for approval.
15	Vehicular emissions should be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. The vehicles should be covered with a tarpaulin and shall not be overloaded.	Mine is not in operation since November 2013. No mining operation was being carried out during above period and as on date.
16	Blasting operation should be carried out only during the daytime. Controlled blasting should be practiced. The mitigative measures for control of ground vibrations and to arrest fly rocks and boulders should be implemented	Mine is not in operation since November 2013. No mining operation was carried out during above period and as on date. However, Blasting time is fixed during Lunch Time i.e. 1.00 PM -2.00 PM (whenever will be done post resumption of mining operation). Controlled blasting method will be practiced once mine becomes operational. All efforts will be taken to mitigate impact of blasting post resumption of mining activities.
17	Drills should either be operated with dust extractors or should be equipped with water injection system	Mine is not in operation since November 2013. No mining operation was being carried out during above period and as on date.
18	Sewage treatment plant should be installed for the colony. ETP should also be provided for workshop and wastewater generated from mining operations.	The sewage water from domestic uses is collected and treated in Sewage Treatment Plant. No effluent is generated and hence, ETP is not required. However, Oil grease separator has been constructed.

19	Consent to operate should be obtained from SPCB prior to start of production of mine.	No mining operation was being carried out during the above period and as on date. Mine will be operative post obtaining renewed consent to operate and other clearances as applicable.
20	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project	System is already in place.
21	The critical parameters such as RSPM(Particulate matter with size less than 10micron (i.e., PM10, , PM2.5) and NOX in the ambient air within the impact zone, peak particle velocity at 300m distance or within the nearest habitation, whichever is closed shall be monitored periodically. Further, quantity of discharged water shall also be monitored [TDS,DO, PH and TSS}The monitored data shall be uploaded on the website of the company as well as displayed on a display board at the project site at a suitable location near the main gate of the Company in public domain. The Circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment and Forest, which is available on the website of the Ministry www.envfor.nic.in shall also be referred in this regard for its compliance.	Being carried out. Monitoring report attached as Annexure-1. Data being uploaded on company website regularly as required.

22	A Final Mine Closure Plan along with details of Corpus Fund should be submitted to the Ministry of Environment & Forests 5 years in advance of final mine closure for approval.	<p>Progressive mine closure plan along with mining scheme has been approved by IBM. FMCP (part area) also has been approved by IBM. Final mine closure plan (FMCP) for total lease area will be prepared in due time as per applicable guideline and timelines mentioned in MCDR/IBM guideline who are competent authority to approve the same.</p> <p>Based on present resource estimate and peak rated production capacity mentioned in EC, tentative balance life is around 10 years. However, after completion of further detailed exploration, resources estimate vis-à-vis balance life of mine may change based on final resource estimate, EC capacity and cut-off grade at that point of time.</p>
----	---	---

General Conditions.

Sl No	Conditions	Compliance Status
1	No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment & Forests.	Noted. The Mine is not in operation since November 2013.
2	No change in the calendar plan including excavation, quantum of mineral bauxite and waste should be made	<p>The Mine is not in operation since November 2013. No mining operation was being carried out during the above period and as on date. Report is attached as Annexure-4.</p> <p>We agree to comply with provision stipulated herein post resumption of mining operations</p>
3	Conservation measures for protection of flora and fauna in the core and buffer zone should be drawn up in consultation with the local forest and wild life department.	The Mine is not in operation since November 2013. Conservation plan was submitted to PCCF Wildlife. Suitable conservation measures were undertaken in past when mine was operational as per plan submitted and is being done continuously.

		No mining operation was carried out during the above period and as on date.
4	Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone for RPM, SPM, SO ₂ , NO _x monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.	We have already established four ambient air quality monitoring stations in core zone as well as buffer zone. Monitoring is being carried out and reported to concern authorities. Report is attached as Annexure 1.
5	Data on ambient air quality (RPM, SPM, SO ₂ , and NO _x) should be regularly submitted to the Ministry including its Regional office located at Bhopal and the State Pollution Control Board / Central Pollution Control Board once in six months.	Monitoring report is annexed as Annexure-1.
6	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.	The Mine is not in operation since November 2013. No mining operation was carried out during the above period and as on date. We agree to comply with provision stipulated herein post resumption of mining operations.
7	Measures should be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc. should be provided with ear plugs / muffs.	The Mine is not in operation since November 2013. No mining operation was carried out during the above period and as on date. We agree to comply with provision stipulated herein post resumption of mining operation as complied in past.
8	Industrial waste water (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from	The Mine is not in operation since November 2013. No mining operation was carried out during the above period and as on date. We agree to comply with provision stipulated herein post resumption of mining operation as complied in past.

	time to time. Oil and grease trap should be installed before discharge of workshop effluents.	
9	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	<p>The Mine is not in operation since November 2013. No mining operation was carried out during the above period and as on date.</p> <p>We agree to comply with provision stipulated herein post resumption of mining operation as complied in past.</p>
10	A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization	The Mine is not in operation since November 2013. Already formed and informed. Vide Annexure-3.
11	The project authorities should inform to the Regional Office located at Bhubaneshwar regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	<p>Mining Plan along with Progressive mine Closure Plan has been approved by IBM, Ranchi. This was an operating Mine, hence provision related to Financial closure not applicable.</p> <p>Currently, the Regional Office is located at Ranchi.</p>
12	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the Ministry and its Regional Office located at Bhubaneshwar.	The funds earmarked for environmental protection measures is being budgeted. Annual expenditure is being reported to the Ministry as attached as Annexure 2.
13	The Regional Office of this Ministry located at Bhubaneshwar shall monitor compliance of the stipulated conditions. The project authorities should extend full	Being complied with. Now Regional office is at Ranchi.

	cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information / monitoring reports.	
14	The project proponent shall submit six monthly reports on the status of compliance of the stipulated environmental clearance conditions including results of monitored data (both in hard copies as well as by e mail) to the Ministry of Environment and Forests, its Regional office Bhubaneshwar, the respective Zonal office of Central Pollution Control Board the State Pollution Control Board. The proponent shall upload the status of compliance of the environmental clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the Ministry of Environment and Forest, Bhubaneshwar, the respective zonal office of Central Pollution Control Board and the State Pollution Control Board.	Six monthly reports on the status of compliance of the stipulated environmental clearance conditions including results of monitored data by e mail are being submitted to the Ministry of Environment and Forests, its Regional office Ranchi, the respective Zonal office of Central Pollution Control Board the State Pollution Control Board and uploaded in company's website.
15	A copy of clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parisad / Municipal corporation, urban local body and the local NGO, if any, from whom and suggestions / representations if any were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.	A copy of clearance letter has been sent to concerned Panchayat, Zila Parisad / Municipal corporation, urban local body and the local NGO.
16	State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Collector's office/ Tehsildar's Office for 30 days.	Displayed.

17	<p>The environment statement for each financial year ending 31st March in Form V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Regional Office of the Ministry of Environment and Forests, Bhubaneswar by e-mail.</p>	Being submitted.
18	<p>The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of Environment and Forests at http://envfor.nic.in and a copy of the same should be forwarded to the Regional Office of this Ministry located Bhubaneshwar.</p>	Already done (Documents already submitted).

Environmental Monitoring Report

OCTOBER 2019

Report No.: MEEPL/NOV0084/2019-20	Date: 11 th November, 2019
Sample described by customer: AMBIENT AIR QUALITY MONITORING	
Client Name: Hindalco Industries Limited	
Client Address: Lohardaga	
Postal Code: 835203	
State: Jharkhand	
Country: India	
Sample Type: AMBIENT AIR QUALITY MONITORING	
Marks on Sample Location: Near Daldaliya Village	
Sample collected on: 03.10.2019	

LOCATION / IDENTIFICATION: Near Daldaliya Village				
Sl. No.	PARAMETERS	UNIT	Standard Limit	Concentration
01.	Particulate Matter (size less than 10 µm) PM ₁₀	µg/m ³	100	31.5
02.	Particulate Matter (size less than 2.5 µm) PM _{2.5}	µg/m ³	60	17.9
03.	Sulphur Dioxide (SO ₂)	µg/m ³	80	2.5
04.	Nitrogen Dioxide (NO ₂)	µg/m ³	80	1.8
05.	Ammonia (NH ₃)	µg/m ³	400	4.0
06.	Ozone (O ₃)	µg/m ³	180	5.5
